

Information Checking

Please help us keep you up to date at St. Mark's by filling out the information below:

Name: _____ Cell Number _____

Email _____

Name: _____ Cell Number _____

Email _____

Names of children or others in your home _____

That's it!

REMINDER:

Our goal is better communication in the church. Church Center offers the opportunity for quick communication and also to provide everyone with a directory so we can better know and connect with one another. We are not seeking for everyone to use Church Center all the time but we hope to at least to get people information available so we can all connect. Over next couple of weeks feel free to drop by the table we will have in Narthex with people prepared to help you with the very basics of Church Center (loading and entering your information, as well as help if needed in navigation).

Go to Stmarksbethany.com for help on downloading, setting up and using Church Center.

To make an effective directory we need you to enter your information into church center (you can choose to share, address, phone, picture, etc.). Only you can update that information so we need your help.
